- Pre-Existing Space       To be custom built for the cabinet

Measurements of Pre-Existing Space in inches: Width \_\_\_\_\_ Height \_\_\_\_\_ Depth \_\_\_\_\_

*\*\*\* Allow 1-2" space in the alcove (on the top and sides) to work with after the cabinet is delivered. It is recommended that you not finish the space until the cabinet has been installed to ensure it will fit and account for additional variables. All contractors should recognize the "rough opening". We do not accept any responsibility for cabinets that do not fit into the alcove. That responsibility must be managed by the customer and contractor.*
